REASON FOR WITHDRAWAL

This review has been withdrawn because it has been split into the following reviews: '(Adeno)tonsillectomy versus non-surgical management of obstructive sleep apnoea syndrome (OSAS) in children' ([Schilder 2015](#)) and 'Tonsillectomy versus tonsillotomy in children with sleep-disordered breathing (including obstructive sleep apnoea)' (protocol) ([Blackshaw 2014](#)).

WHAT'S NEW

Last assessed as up-to-date: 6 August 2010.

Date	Event	Description
28 September 2015	Amended	This review has been withdrawn from Issue 9, 2015 because it has been split into the following reviews: '(Adeno)tonsillectomy versus non-surgical management of obstructive sleep apnoea syndrome (OSAS) in children' (Schilder 2015) and 'Tonsillectomy versus tonsillotomy in children with sleep-disordered breathing (including obstructive sleep apnoea)' (protocol) (Blackshaw 2014).

HISTORY

Protocol first published: Issue 4, 2001

Review first published: Issue 1, 2003

Date	Event	Description
6 August 2010	New search has been performed	New literature search run, no new studies identified.
11 November 2008	New citation required and conclusions have changed	Evidence from one small study has been incorporated into this review. Long-term assessment of OSA outcomes in children undergoing adenotonsillectomy remains a priority for future studies
1 August 2008	New search has been performed	Literature search re-run; one new eligible study identified
26 May 2008	Amended	Converted to new review format.
18 December 2006	New citation required and conclusions have changed	Substantive amendment
